

Developing Brooklyn: Bergen

Brooklyn, NY Designed by Taller Frida Escobedo, with master planning by DXA Studio, residential interiors by Workstead, and landscape design by DXA Studio and Patrick Cullina, Bergen balances the line of standing out and blending in: introducing a fresh new architectural gem to Brooklyn while honoring the integrity of the neighborhood. Nestled into a serene tree-lined street in Boerum Hill, Bergen features 105 studio through five-bedroom condominium residences that are inspired by a fundamental way of living that celebrates the imperfect qualities of life. Composed of handmade geometric modules, the façade elegantly weaves light, shadow, and air throughout the home, revealing crafted finishes and celebrating the natural environment. The residential offering includes a collection of penthouses and townhouse-style units, and 75% of residences include private outdoor space.

Avdoo partnered with community talents and local businesses to offer amenity spaces. The building's central volume, the Glass House, features over 14,500 s/f of interior amenities that channel health, wellness, community, and the arts, to create a sense of belonging, including a tea room with Kettl, a ceramic studio with BKLYN CLAY, an art studio with Arts Gowanus, among others. Residents also have access to 12,000 s/f of exterior amenities, including a tranquil, forest-like park on Dean St. and two common rooftop parks designed by DXA Studio and Patrick Cullina. Bergen is nearly 70% sold and currently the top selling condominium in NYC by velocity, a true testament to its thoughtful design and meaningful connection to the neighborhood.

Project Info

Project Title Bergen

Project Location Brooklyn, NY

Property Type Clean energy, healthcare, hospitality, mixed-use

Project Type New

Number S/F 210,000 s/f

Year Started 2023

Est. Date Completed June 2025

Project Team

Architectural Design Taller Frida Escobedo

Interior Design Workstead

Architect of Record GF55

Master Planning; Landscape Design DXA Studio

Landscape Design Patrick Cullina

Developer Avdoo
